

# POWERFUL

Why is it always only boys who rave about trails, bike parks and epic descents? Girls want that, too: bikes with genius suspension, a fun geometry on the downhill, boosting your confidence as you fly through the next tight corner. It should also be packaged nicely with great looks, which doesn't mean cute and sweet. That's why the DREAMR X is here. Everything boys wish for. But only for girls.

## FOR GIRLS BY GIRLS

«GREAT BIKES WITH A COMPACT GEOMETRY  
ESPECIALLY FOR WOMEN. VERY EASY HANDLING.  
QUALITY WORKMANSHIP.»  
Tina, GHOST development engineer

Our engineer Tina, the XC World Cup women's team and riders like Franz Meyer give us the best possible feedback for our bikes. Who knows better than women themselves what women need? For our DRE AMR X we chose a high-end steel suspension damper for best possible suspension performance, easy to set and low in maintenance. The dropper seat post offers more freedom to move with the simple push of a button.

# LANAO

We have the right LANA0 for all biker types: For tall girls who are looking for a fast bike, there are the 29ers. In addition to the 27.5-inch models we also offer a 26-inch LANA0 for shorter bikers or girls who prefer the agile handling of the smaller tires.

## LANAO 7

**OUR TOP HARDTAIL, ESPECIALLY FOR WOMEN! LOW DRAWN TOP TUBE AND FEEL-GOOD GEOMETRY. FRAME:** LANA0 29/27.5 Alloy AL **FORK:** Rock Shox SR Silver Solo Air PogoLoc 100 mm **DRIVETRAIN:** rear derailleur: Shimano XT 11-Speed // front derailleur: Shimano SLX // shifter: Shimano SLX SL // crankset: Shimano SLX 34-24 **BRAKE:** Shimano 345 Disc 180 mm **RIM:** Rodi Blackrock 21 **TIRE:** Michelin Country Race R 2.10 **COLOR:** night blue / root red / monarch orange **WEIGHT:** 13.9 kg **FRAME SIZES:** 29" S-M / 27.5" XS-S

## SIZE SPLIT

**OUR SIZE SPLIT MAKES YOUR CHOICE EASIER:** Our bikes come with the wheelset that corresponds to the frame size. Shorter riders don't feel quite as much at home on 29ers because the handling is not as agile anymore. The Size Split means that for XXS to S sizes we chose 27.5-inch wheelsets. Starting at size S to M, we use 29er wheelsets for taller bikers. Bottom line: 27.5-inch for riders between 135 and 180 cm, 29-inch for riders 185 cm and up. In the middle, there are crossovers where both wheelset sizes are available - each girl can decide on her preference.
