Your trips into the wild require gear. We developed the AMR pack system for easy transport - and that doesn't mean carrying everything on your back over the course of several days. Available as a complete set for fullsuspension bikes or hardtails, or as individual bags. Extra bonus: it can be attached to our AMR backpack. This means that you can leave your bike behind and climb the via ferrata hiking trail to spend the night on the peak!

Engineering expertise, craftsmanship, skill, ability and passion – Pinion delivers the transmission for our Backcountry explorers. Pinion's motivation: achieving technical perfection. In cooperation with them, we developed the most reliable partners for your adventures: Our H AMR X and ROKET X. Designed and manufactured by hand in Germany, Pinion transmissions keep working reliably and are virtually maintenance-free. The compact design provides an integrated, streamlined design for innovative bicycles – Pinion bikes are excellently balanced and technically perfect. All Pinion transmissions guarantee flawless operation in every situation, regardless of the conditions. Whether it is the P- or C- Line, Pinion transmissions are precisely defined gear shift systems that meet the highest demands in terms of ease of shifting gears and smooth riding characteristics – for a trip round the world or on the trail, just as much as in the city or on a weekend trip.

«THE MAINTENANCE FREE TRANSMISSION  
GIVES ME PEACE OF MIND AND THE FREEDOM  
TO GO WHEREVER I WANT.»
