

EXPLORE YOURSELF

We head out for our tour after work, while others settle in on the couch. We dream of long tours and know the legendary mountain roads by heart. We pedal against the wind, switchback after switchback we make our way uphill. Our heart races, our lungs are pumping, legs burning, sweat dripping from our chin - we are loving it! What drives us? That's easy: our road bike.

ENTRY-LEVEL WITH PLENTY OF UPSIDE

Opting for a carbon racer as a beginner or occasional athlete? Really not necessary. An absolute must is outstanding comfort which doesn't spoil your desire to cycle - but only increases your appetite! Our NIVOLET AL is a combination of a lightweight double butted aluminum frame with a carbon fork. Non-frequent riders love a clean, elegant design just as much - and that's why all cables disappear in the aluminum frame.
