

AMR CONCEPT

- **DISCONNECTED** Disconnect Brakemount protects the frame from thermal and mechanical load peaks
- **LOW MAINTENANCE** Generously sized Industrial bearings ensure a smoothly functioning rear triangle
- **TUNED** Vario-Flip-Shock mounts for variable travel and tuned geometry
- **REPLACEABLE** Adapter for ISCG 05 chain guide and high-mount front derailleur
- **PROTECTED** Soft protectors prevent damage to the frame
- **CLEAN** Complete internal cable routing inside the frame and rear triangle

AMR FAMILY

MARRIED ... WITH GENIUS CHILDREN!

Our AMR platform offers the perfect riding experience for any preference - from the flow trail to the rough bike park operation.

The centerpiece is the new frame with technical highlights like disconnect brakemount, Vario flip shock mount, completely internal cable routing, low-maintenance industrial bearings - just to name a few. Thanks to our clever assembly kit system, we are able to boast high-end model technical innovations even in the entry-level price range.

Aluminum or carbon, 29, 27.5 or 27.5 inch Plus wheelset and travel options from 130 mm to 170 mm make the AMR family a truly all-purpose weapon. Rock 'n' Roll!

CANE CREEK AND GHOST

"IN PROFESSIONAL RACING, EVERY FRACTION OF A SECOND COUNTS. WITH THE NEW COIL SHOCK GENERATION I CAN GET THE BEST PERFORMANCE OUT OF THE CHASSIS!"

Kevin Maderogger, GHOST RACING RIBT rider

SUPPORT THROUGH MID TRAVEL

EXTRA SUSPENSION PERFORMANCE - THANKS TO THE COIL SHOCK.

No breakaway torque. Outstanding sensitivity. Plush riding feel, no bottoming out. Anything else needed? We don't think so. That's why, in cooperation with our partner Cane Creek, we put extremely performance-oriented bikes on wheels - and exclusively incorporated the new Cane Creek Double Barrel Inline Coil CS as well. Performance you will notice right when you get on!

EXCLUSIVE PARTNERSHIP

Everyone wants a perfectly suited partner. Our partnership of several years with Cane Creek, renowned as a high-end manufacturer in the suspension industry, has made us proud from the very beginning. Together, we not only are able to optimize suspensions and chassis, but also develop technologies like the ClimbSwitch.

EX TWIN TUBE	Damping through twin tube for one-of-a-kind responsiveness and adjustability.
CS DOUBLE BARREL	Climbing properties adjustable on the fly.
VALT	Extralight VALT™ Coil, 192 g lighter than comparable steel coils (2.5x450)
CS	Four possible settings, totally independent from one another
DB	Handmade in North Carolina, USA

GHOST-BIKES.COM

FRAMR

OUR FUN MACHINE FOR THE PARK, HOME SPOT OR RACE. ROCK 'N' ROLL!

Congratulations, dear adrenalin junkies: You have just found your bike! Our FR AMR is an extremely potent ride that has everything you need for an exhilarating bike park experience. It is super precise to control yet forgiving and confidently swallows up the roughest sections with a full 170 mm at the front and 160 mm at the rear. The FR AMR is available in multiple versions, but all have one thing in common: They give you a lot of well-equipped downhill fun for your money!

EXCLUSIVE CANE CREEK
SIGNATURE MODEL

PRECISE AND FORGIVING

SLAMR X

EXTREMELY HUNGRY, BUT NOT ONLY FOR THE THRILLS AND SPILLS OF THE SLOPES.

The SL AMR X is a bike for those who can not get enough! While our SL AMR is a classic touring all-rounder, the X delivers quite a few Xtras - particularly more travel. Our 29-inch models with their 150 mm/140 mm travel give as good as they get and the 27.5-inch models make easy work of gnarly sections with their 150 mm/150 mm. Our X-bikes may be playful on the trail but they are also very directionally stable and uphill you can feel the fast SL AMR racing genes. Because even if the SL AMR X rides downhill like a shot, riding it on the long climbs is still a blast. This is a bike that can take anything you throw at it, which will not set itself any limits or ever stand still.

20 29 SLAMR X9

THE TRAIL MACHINE THAT REDEFINES SPEED AND FUN. FRAME: SLAMR X 29 Lightweight Carbon LC / Alloy AL. FORK: Fox 36 Float Performance Elite 150 mm 15 mm Boost. SLAMR

THE PERFECT TOURING FULLY WITH A GREAT RANGE OF OPTIONS.

With our SL AMR we've rolled out an extremely sporty all-rounder that climbs nimbly and cuts a fine figure on the trails. Its confident mastery of the terrain is down to its balanced geometry, the 130 mm at the front and at the rear and the high-quality equipment throughout. And it is up to you to select the equipment that suits your style: Our top carbon model for instance with SRAM's brand new 1x12 Eagle group for maximum bandwidth. In addition, our touring expert with its distinctively edged frame design is definitely easy on the eye - not least because of its impressive lightweight and stiff rear triangle with interior cable routing.

20 29 SLAMR 10

UNCOMPROMISING: OUR BEST TRAIL BIKE IS EVEN FASTER WITH THE 1X12 EAGLE AND 29" WHEELS. FRAME: SLAMR 29 Lightweight Carbon LC / Alloy AL. FORK: Rock Shock Pike RC Solo Air 130 mm 15 mm Boost.
